

Cylinder Liners

High-strength raw material for longer life • Precision-machining for accurate dimensions to enable easy fitment • Efficient honing pattern and surface finish for adequate lubrication & lesser ring wear • Optimum hardness and porosity for reliable operation

Leyparts stands for the comprehensive range of genuine spares for Ashok Leyland vehicles and engines with 100% conformity to OE specifications. Leyparts are easily available through an extensive network of Ashok Leyland Dealers / Distributors and also the Retail outlets across the country.

Cylinder Liners

Cylinder Liners for all Hino engines

Look for Original Leyparts Pack

Cylinder Liners for all AL engines

Leyparts Cylinder Liners

- Material checked with Quantavac computer controlled analyzers for all elements at a time.
- To obtain an optimal mix of mechanical properties, durability, heat dissipation, wear resistance and ring contact with liners, a critical balance is maintained between carbon, chromium and phosphorus in the raw material.
- Hardness, especially, is closely monitored since low hardness will lead to faster wear and high hardness to breakage.
- Bore size and inner/ outer dia. checked with high precision electronic/ pneumatic gauges.
- Electronic surface testing is done using Talysurf for optimum surface finish.
- 100% crack detection with sophisticated crack detection equipment.
